SIEMENS

599 Series Powermite and Zone Valve Actuator Weather Shield

Product Description

The 599 Series Powermite and Zone Valve Actuator weather shield provides additional protection against the elements for actuators in outdoor installations. The cover is easy to install, with all necessary hardware included in the assembly kit.

NOTES:

- This unit is approved for outdoor installation only when a weatherproof conduit connector is used.
- The weather shield provides NEMA 3R protection against rain, sleet and damage from external ice formation when installed in the orientation shown in Figure 3.

Contents

- 1 Weather shield side, male (bottom)
- 1 Weather shield side, female (top)
- 4 UV resistant cable ties

Product Number

599-10077

Caution Notation

CAUTION:	Â

Equipment damage, or loss of data may occur if you do not follow procedures as specified.

Required Tool

Conduit knockout punch

Expected Installation Time

15 minutes

Installation

- 1. Punch a hole through weather shield at the preferred conduit location.
- 2. Install male side (bottom) of weather shield over valve. See Figure 1.

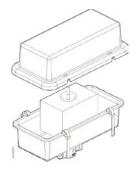

Figure 1.

- Install actuator on to valve. See Figure 1.
 NOTE: See Figure 3 for mounting restrictions.
- 4. Connect conduit to weather shield using a weatherproof conduit connection.
- 5. Wire actuator according to installation instructions.
- 6. Place female side (top) of weather shield over bottom of installed weather shield (male side).
- 7. Align holes in the weather shield side flanges and secure with four cable ties. See Figure 2.

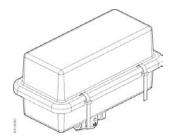

Figure 2. Installed Weather Shield.

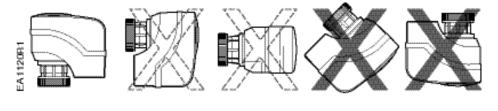

CAUTION: Over-tightening cable ties can damage the assembly.

The installation is now complete.

Document Number 129-431 Installation Instructions October 5, 2009

Mounting

The actuator and Weather Shield must be mounted vertically to ensure NEMA 3R rating.

Not Allowed with the Weather Shield.

Figure 3. Acceptable Mounting Position.
